

PCA Peel®
hydroquinone
free

This enhanced Jessner's solution is ideal for more sensitive skin types, ethnic skin or those allergic to or sensitive to hydroquinone. This treatment will help to rejuvenate and improve the appearance of breakout-prone skin, while also promoting an even, bright skin tone.

before

Condition: melasma.*

after

Solution: used The Pigment Control [Sensitive] Solution and received five PCA Peel® Hydroquinone Free treatments over a four-month period.

*Photos not retouched.

Key ingredients:

Lactic Acid (14%) – is an alpha hydroxy acid (AHA) naturally found in milk and sugars. It is part of the skin's natural moisturizing factor (NMF) and moisturizes the skin.

Salicylic Acid (14%) – is a calming lipophilic beta hydroxy acid (BHA) that helps promote a clear complexion.

Kojic Acid (3%) – helps promote and even skin tone.

Citric Acid – is an alpha hydroxy acid (AHA) naturally found in citrus fruits.
