

## Retexturize: Therapeutic Pumpkin Mask

This nutritive treatment mask addresses thick, resilient skin with acne, sun damage or hyperkeratolytic buildup. **Retexturize: Therapeutic Pumpkin Mask** combines exfoliating pumpkin enzymes and salicylic acid along with a host of antibacterial and antioxidant ingredients to address rough-textured skin caused by keratinization, leaving a healthy complexion following treatment.

before

Condition: acne\*

after

Solution: Received one Retexturize: Therapeutic Pumpkin Mask treatment and used BPO 5% Cleanser, Acne Gel, Intensive Clarity Treatment, Purifying Mask, Clearskin and Weightless Protection SPF 45 over a two-week period.\*

### Key ingredients:

**Pumpkin Fruit Enzymes** – are the proteases from pumpkin that act as exfoliating agents.

**Salicylic Acid** – is a calming lipophilic beta hydroxy acid (BHA) that helps promote a clear complexion.

**Glutathione** – is an endogenous antioxidant that is produced naturally by the body.

**Gluconic Acid** – is an alpha hydroxy acid (AHA) that is calming, moisturizing and promotes a clear complexion.
